

BEAUTY DRIP

Mobile/Home IV Fee Differs, call to inquire about fees. Dependent on location, event type, number of clients, etc.

Turn back the clock with this anti-aging IV drip loaded with antioxidants and essential nutrients to fortify your skin and hair, boost brain and heart health, and promote detoxification and longevity.

BIOTIN • GLUTATHIONE • B-COMPLEX • VITAMIN C • NIACIN

HOW DOES IT WORK?

- **Concentrated Vitamin C** aids in collagen synthesis while also regenerating vitamins E and A in the body, which is helpful for scars and anti-aging.
- **Biotin** assists in energy production and acts as a coenzyme in the metabolism of carbohydrates, fats, and proteins.
- **Glutathione** brightens skin due to its main component, cysteine. High levels of cysteine in the body have been shown to lower overall melanin production by inhibiting tyrosinase (an enzyme that stimulates melanin production) and changing the metabolic pathway of melanin from synthesizing dark-pigmented melanin (eumelanin) to creating light-pigmented melanin (phaeomelanin).
- **Niacin** helps to create ceramides, natural lipids that allow the skin to retain moisture. It also helps improve uneven skin tone, fine lines, and wrinkles, and helps maintain the skin's moisture barrier protection. Niacin is also a non-irritating, anti-inflammatory agent that has been shown to calm acne flare-ups.
- **Biotin and Niacin** help increase the strength and length of hair and nails.
- **Glutathione and Niacin** assist in vitamin C recycling.
- **Glutathione** acts as an important antioxidant in your body that combats free radicals, reducing oxidative stress and preventing damage to cells.
- This combination of nutrients works synergistically to enhance skin and hair health, support cognitive and cardiovascular function, and promote overall longevity through powerful antioxidant and anti-inflammatory effects.
